 How much percent were won of the the offensive duels
 How many touches in the box does the player have in the opposite box per 90 minutes
 How many Progressive runs does the player have in 90 minutes
 How many passes does he receive per 90 minutes
 How many long passes does he receive in 90 minutes
 Fouls committed by the opposite player against him in 90 minutes
 How many passes in 90 minutes
 How much percent of the passes are successful
 How many of the passes are forward per 90 minutes
 How much percent of the forward passes are successful
 How many of the passes are backwards per 90 minutes
 How much percent of the passes are successful
 number of lateral (sideways) passes made by a player in a match over a 90-minute period.
 How much percent of the lateral passes are successful
 How many of the passes are medium or short per 90 minutes
 How much percent of the passes are long or short per 90 minutes are accurate
 How many of the passes are long per 90 minutes
 How much percent of the passes are long or short per 90 minutes are accurate
 What is the average length of an average pass in meters
 What is the average length of an average long pass in meters
 The expected assists per 90 minutes
 The given player tries to shoot but instead gets an assist per 90 minutes(deflection In most cases)
 When the given player gives the ball to the assister per 90 minutes
 When the given player gives the ball to the second assister per 90 minutes
 Number of smart passes normalized per 90 minutes(smart pass- in most cases is a link up play or a through pass to
 How much percent of the smart passes are successful
 How many key passes per 90 minutes (key pass- that directly leads to a goal scoring opportunity)
 How many passes are done per 90 minutes in the final third of the pitch(final third pitch-in the last 30 meters from
 How much percent of the passes in the final third are accurate
 How many passes are in the penalty box per 90 minutes
 How much percent of the passes in the penalty area are accurate
 How many through passes are done per 90 minutes(through pass - is a pass that is forward and destroys the oppo
 How much percent of the through passes are accurate
 How many deep completions are done per 90 minutes(deep completions - A non-cross Pass that is targeted to the

How many deep crosses are completed per 90 minutes (not more than 20 meters from the opponent goal)
How many of the passes are progressive per 90 minutes (progressive pass is a pass that is towards the opposite goal)
How much percent of progressive passes are accurate
How many goals were conceded when the player was playing
How many goals are conceded per 90 minutes
How many shots were fired into your goal
How many shots were fired into your goal per 90 minutes
How many clean sheets (clean sheet- When your team didn't concede any goals the whole match)
How much percent of the shots fired were saved (only for goalkeepers-GK)
How many goals are expected to score when the player is goalkeeping (only for goalkeepers- GK)
How many goals are expected to score when the player is goalkeeping per 90 (only for goalkeepers- GK)
How many goals are prevented (only for goalkeepers-GK)
How many goals are prevented per 90 minutes (only for goalkeepers-GK)
How many passes are received as a Goalkeeper per 90 minutes (only for goalkeepers-GK)

Aerial duels per 90 minutes (only for goalkeepers-GK)
How many free-kicks are given per 90 minutes
How many direct free kicks are given per 90 minutes (is when a player can score directly without touching any other player)
How much percent of the direct free kicks are on target
How many corners the player takes per 90 minutes
How many penalties were taken
How much percent of the penalties were scored

3 players when your team is at possession with a simple formula: interceptions / minutes of the other team

am * 30 = Padj sliding tackles.
